Antoine Bigard

FULL STACK DEVELOPER - DEVOPS - CTO

Business oriented Tech enthusiastic. After 8 years of Software engineering as a professional, I've grown my skills throughout more than a dozen different projects, environnements and stacks; from front-end development to CTO. I've experienced all stages of the development cycle with a strong background in management and leadership.

Eager for new challenges, I thrive through innovation and new technologies.

DECISION MAKING

TIME MANAGEMENT

LEADERSHIP

ADAPTABILITY

💬 LANGUAGES

French - Mother tongue
English - Fluent
Spanish - Medium level

★ EXPERIENCE

Full-stack developer · Sep 2018 - Feb 2019 · Paris
BETA.GOUV.FR - beta.gouv.fr

As part of beta.gouv.fr, I work alongside intrapreneurs of the Administration to transform, in start-up style, our public services.
I was involve in the POP startup "Plateforme Ouverte du Patrimoine", which aims to make our heritage accessible to as many people as possible.

CTO - Service Lead · Jan 2018 - Sep 2018 · Singapore
APAC Technology Lead · Feb 2015 - Jan 2018 · Singapore
ADACTIVE ASIA - adactive.com

Adactive is an application service provider, specialized in wayfinding. The in-house 3D map solution, AdSum, is available on kiosks, mobile & web. The back-office provides a 3D modeling tool, a content management system & an analytics platform.

Full stack R&D · 2014 - 2015 · Clamart
EDF LABS - BR. ICAME

Commercial innovations, market conditions analysis.
- Brand promotion through an augmented reality game.
- Setting up and running a Code Challenge arround energy consumption in the Business incubator TUBA of Smart Electric Lyon.

★ PROJECTS

Compo.io · Sep 2018 - Feb 2019 · Paris
COMPO - compo.io

React's components automation project. Transform CodePen's snippets into React component. Snippets ready to use in few clicks.
